Bottom Line

The Bottom Line

Schaeffer's extends drain intervals and reduces maintenance costs for sod installation business.

The Company

Tom's Sod Service Inc., Clearwater, Florida

The Story

Tom's Sod Inc. does golf course, commercial and residential sod installation in the Clearwater, Florida area. Tom's Sod has been a customer for 6 years and would recommend Supreme 7000 15w-40 to extend oil drain intervals. The operating temperature of the engine and the hydraulics of the sod cutting equipment have cooled significantly.

Since becoming head mechanic, Jeff Erickson said he has had to rebuild only one engine due to the fault of a compression ring failure. On the sod installer he frequently replaced the hydraulic pumps due to overheating. After switching to Simplex 315 he has not had to replace a single pump. The Simplex 315 has stopped all of his overheating problems completely.

Products used in this truck: #700 Supreme 7000 15w-40 engine oil, #214 Gear Lube, #238 Moly Grease & #315 Simplex Hydraulic Fluid.
