It's the Cost to Use

Bottom Line

THE BOTTOM LINE

Wood grinder bearing casing becomes safe to touch after switching to Schaeffer's # 274 Moly E.P. Synthetic Plus Grease.

THE COMPANY

Silver Knob Pallet - Swanton, MD

THE STORY

Dave Roth, Owner of Silver Knob Pallet in Swanton, MD, was having high heat on the bearings of his Montgomery 58" Hog Grinder. The machine has an average of 2,000 RPM's. Previously with a Lithium based grease, Dave would not even be able to touch the bearing casing without getting burned.

Dave decided to switch to Schaeffer's # 274 Moly E.P. Synthetic Plus Grease. And now, although he does not have the exact temperature, the bearing casing can be touched without burning your hand. Dave is amazed how greatly the friction has been reduced, due to grease that lubricates better.

Silver Knob Pallet also uses Schaeffer's #700 Supreme 7000™ Synthetic Plus 15W-40.
