

It's not the Cost to Buy It's the Cost to Use **Bottom Line**

THE BOTTOM LINE

Schaeffer's #450 Food Grade Chain Lube saves time and power!

THE COMPANY

Western Bagel in North Hollywood, CA

THE STORY

Fred Carroll at Western Bagel decided to try Schaeffer's **#450 Food Grade H-1 Hi-Temp Chain Lube** in the tunnel ovens. They were using Lubrication Engineers premium smokeless high temperature food grade chain lubricant, but it was problematic. The competitor's chain lube required mixing with a drill blade in the shipping container. Extreme care was necessary during mixing not to touch the sides of the container with the mixing blade or else tiny chips of plastic would get into the lube and eventually cause rollers to freeze up every two to three months. Also, the old chain lube would gunk up so much that a manual cleaning was necessary every few months which, cost production time. The oven chains are hundreds of feet long so the job would take hours to complete.

When Schaeffer's #450 Food Grade H-1 Hi-Temp Chain Lube was introduced to the plant, **five** positive things happened.

First: Amperage reduction! On the old chain lube amperage ran from 3.4 to 3.7. The amperage on Schaeffer's runs only 2.4 to 2.6. That is a **30% reduction** in power usage!

Second: Schaeffer's #450 requires no mixing and goes on cleanly, so no chance of contaminants getting into the lubricant. There have been no clogs or lubricant related stoppages since putting Schaeffer's in over a year ago.

Third: Schaeffer's #450 Chain Lube reduces the noise level in the plant.

Fourth: Schaeffer's is less expensive than the old chain lube and Schaeffer's #450 out performs it by far!

Bottom Line

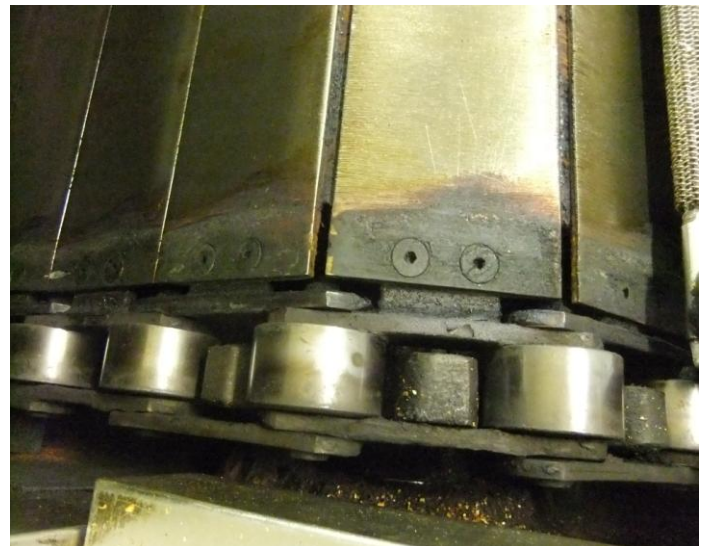

THE BOTTOM LINE

Western Bagel cont'd.

Fifth: Schaeffer's #450 Food Grade Chain Lube cleaned up the gunk left from the previous chain lube. The chain lube actually did the work – not the maintenance crew.

Schaeffer's #450 Food Grade H-1 Hi-Temp Chain Lube

The crew at Western Bagel states that Schaeffer's is "the cleanest, best chain lubricant that they have ever used!" Western Bagel also uses #190E Penetro[®] Green H-1 and #271-2 Synthetic Food Grade Grease H-1.
